

Asset Reports Design Token Audit

Figma reference versus live Asset Reports implementation

FIGMA SOURCE Q3 - Screen Index, node 3393:10804	LIVE SOURCE https://dev.changeinfluence.com/content-reports
REFERENCE FRAME 1420 x 875px	LIVE VIEWPORT 1343 x 908px

Scope note: The authenticated live account rendered the empty state. Populated report rows and status badges were therefore excluded from direct live comparison.

✖ 26 Measured failures	✔ 15 Measured passes	⚠ 8 State-limited observations
--	--	--

Executive Summary

- ✖ **The live shell is not token-faithful to the Figma reference.**
- ✖ **Highest-impact failures:** sidebar width, header height, control dimensions, font fallback, brand purple, page background, borders, radii and shadows.
- ✔ **Confirmed alignment:** main content inset, page heading typography, navigation item height and several spacing gaps.
- ⚠ **Required follow-up:** re-run the audit with a seeded account containing populated report rows.

Layout and Spacing

TOKEN NAME	FIGMA	LIVE	RESULT
layout/sidebar-width	250px	296px	✖ Fail
layout/header-height	49px	64px	✖ Fail
layout/content-inset-x	32px	32px	✔ Pass
layout/content-padding-top	28px	28px	✔ Pass
layout/header-content-gap	28px	20px	✖ Fail
layout/filter-group-gap	12px	12px	✔ Pass
color/background-page	#F9FAFB	#FAFAFA	✖ Fail
color/background-surface	#FFFFFF	#FFFFFF	✔ Pass
color/border-divider	#EAECEF0	Different or implicit	✖ Fail

Header and Breadcrumbs

TOKEN NAME	FIGMA	LIVE	RESULT
spacing/header-padding-x	32px	32px	✔ Pass
spacing/header-padding-y	8px	12px or inherited	✗ Fail
component/utility-button-size	32 x 32px	Approximately 32 x 32px	✔ Pass
component/utility-button-radius	6px	10px	✗ Fail
component/language-control-width	57px	60px	✗ Fail
component/language-control-height	32px	36px	✗ Fail
component/language-control-radius	8px	10px	✗ Fail
color/header-background	#FFFFFF	#FFFFFF	✔ Pass
color/header-border	#EAECE0	Different or implicit	✗ Fail

Page Heading and Typography

TOKEN NAME	FIGMA	LIVE	RESULT
font/family-display	Poppins	Poppins	✔ Pass
font/size/display-xs	20px	20px	✔ Pass
font/weight/semibold	600	600	✔ Pass
line-height/display-xs	24px	24px	✔ Pass
font/family-body	Inter	System sans on supporting text	✗ Fail
font/size/text-sm	13.5px	13px	✗ Fail
font/weight/medium	500	500	✔ Pass
line-height/text-sm	16px	16px	✔ Pass
color/text-quaternary	Figma neutral token	#A4A7AE	⚠ Observe
spacing/heading-support-gap	6px	6px	✔ Pass

Tabs

TOKEN NAME	FIGMA	LIVE	RESULT
component/tabs-height	36px	32px content area	✖ Fail
spacing/tabs-gap	12px	12px	✔ Pass
spacing/tab-padding-x	4px	4px	✔ Pass
spacing/tab-padding-bottom	12px	10px	✖ Fail
font/family-body	Inter	System sans	✖ Fail
font/size/text-md	14px	14px	✔ Pass
font/weight/semibold	600	600	✔ Pass
line-height/text-md	16px	20px	✖ Fail
color/tab-active	#8F3EE8	#7427C9	✖ Fail
color/tab-inactive	Figma neutral token	#717680	⚠ Observe
color/tab-underline	#8F3EE8	Different purple	✖ Fail

Search, Date and Filter Controls

TOKEN NAME	FIGMA	LIVE	RESULT
component/search-width	253px	253px	✓ Pass
component/search-height	36px	40px	✗ Fail
component/date-picker-width	136px	140px	✗ Fail
component/date-picker-height	36px	40px	✗ Fail
component/filter-button-width	94px	98px	✗ Fail
component/filter-button-height	36px	40px	✗ Fail
spacing/input-padding-x	12px	14px	✗ Fail
spacing/input-padding-y	8px	10px	✗ Fail
spacing/control-internal-gap	8px	8px	✓ Pass
spacing/control-group-gap	12px	12px	✓ Pass
component/input-radius	8px	8px	✓ Pass
component/button-radius	8px	10px	✗ Fail
color/input-background	#FFFFFF	#FFFFFF	✓ Pass
color/input-border	#D0D5DD	Approximately #D5D7DA	✗ Fail
font/size/text-md	14px	14px	✓ Pass
font/weight/regular	400	400	✓ Pass
line-height/text-md	16px	20px	✗ Fail
effect/shadow-xs	0 1px 2px rgba(16,24,40,.05)	Heavier multi-layer shadow	✗ Fail

Sidebar

Token Name	Figma	Live	Result
layout/sidebar-width	250px	296px	✗ Fail
color/sidebar-background	#FFFFFF	#FFFFFF	✓ Pass
color/sidebar-divider	#EAECF0	Different or implicit	✗ Fail
component/nav-item-height	40px	40px	✓ Pass
component/nav-item-radius	8px	8px	✓ Pass
spacing/nav-item-padding-x	16px	16px	✓ Pass
spacing/nav-item-padding-y	8px	8px	✓ Pass
color/nav-active-background	Figma pale lavender/pink	#FFECFF	✗ Fail
color/nav-active-text	Figma purple token	Different purple	✗ Fail
font/family-body	Inter	System sans	✗ Fail
font/size/nav-label	Figma body token	16px	⚠ Observe
component/account-card-radius	Figma rounded card	14px	⚠ Observe
component/account-card-border	Figma neutral border	#E9EAEB	⚠ Observe

Empty State Observation

Token Name	Live Value	Comparison	Result
component/empty-state-panel-radius	14px	No equivalent Figma state	⚠ Observe
component/empty-state-content-width	352px	No equivalent Figma state	⚠ Observe
font/empty-state-heading-size	20px/28px	No equivalent Figma state	⚠ Observe
font/empty-state-description-size	16px/24px	No equivalent Figma state	⚠ Observe
component/primary-button-height	36px	No equivalent Figma state	⚠ Observe
component/primary-button-radius	10px	Figma primary token expects 8px	✗ Fail
color/button-primary-background	#9333EA	Figma primary #8F3EE8	✗ Fail
spacing/button-primary-padding	8px 12px	No equivalent Figma state	⚠ Observe

Recommended Token Contract

Token Group	Recommended Value	Purpose	Result
layout/sidebar-width	250px	Shared shell geometry	Fix
layout/header-height	49px	Shared shell geometry	Fix
color/background-page	#F9FAFB	Page surface	Fix
color/brand-primary	#8F3EE8	One primary brand colour	Fix
color/border-input	#D0D5DD	Control borders	Fix
font/family-body	Inter	Body, controls and navigation	Fix
font/family-display	Poppins	Display headings	Keep
component/input-height	36px	Canonical controls	Fix
component/input-radius	8px	Canonical controls	Keep
effect/shadow-xs	0 1px 2px rgba(16,24,40,.05)	Consistent elevation	Fix

Overall Verdict for Development

- ✗ **Visual decisions are duplicated.** Widths, heights, radii, colours and shadows are selected independently instead of through shared tokens.
- ✗ **One semantic role has multiple values.** Figma primary purple is #8F3EE8 ; live active UI uses #7427C9 and the upload button uses #9333EA .
- ✗ **Shell geometry is structurally different.** The 296px sidebar and 64px header shift every downstream alignment from the 250px and 49px Figma structure.
- ✗ **Controls lack a canonical size contract.** Figma uses 36px controls; live controls use 40px with different widths and padding.
- ✗ **Typography is not centrally enforced.** Figma specifies Inter, but live supporting text, tabs and controls fall back to system sans.
- ✗ **Borders and shadows are inconsistent.** Live controls use heavier shadows and different border colours than the Figma contract.
- ✗ **Component variants are not reliably governed.** Similar utility and control roles use different radius values.
- ⚠ **Populated report rows need a second authenticated check** with seeded content before final sign-off.

Recommended Implementation Sequence

- Establish primitive tokens for colour, typography, spacing, radius, border and shadow.
- Add semantic aliases for page, surface, text, brand, control and status roles.
- Build shared Button, Input, Tabs, Badge, UtilityButton, Header and Sidebar primitives.
- Replace local page values with semantic token references.
- Load and enforce Inter and Poppins explicitly.
- Add visual regression coverage at the Figma desktop frame and mobile breakpoints.
- Seed a test account with report data and re-audit rows, badges and action buttons.
- Review the production app URL separately from the dev URL before sign-off.

Prepared for the development team. Statuses are based on measured Figma node data and computed live DOM styles. Production URL and populated-data states require separate verification.
